## **Our Mission:**

To improve lives by mobilizing the caring power of community

## **Our Vision:**

We believe that all children in Southwestern Indiana deserve the best start in life and we work to ensure all children enter school prepared to learn.

We believe our economy depends on a prepared workforce and we work to ensure all Southwestern Indiana youth achieve their full potential.

We believe every family should have the opportunity to meet their basic needs. We work to increase the financial stability of working families.

We believe families and individuals should have access to affordable health care. We work to bridge gaps in services for people in need of access to mental and physical health care. We work to promote healthy lifestyles.

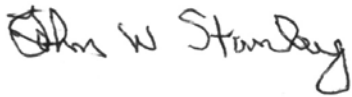

Dear Community:

For many years, United Way has been a part of my life. I've been involved as a donor and volunteer, serving as the Campaign Chair in 2001, on various committees and for the past two years as Chair of the Board of Directors. We have made many changes on our journey to better serve our community.

Our work continues to focus on the building blocks for a good life—education, income and health. The work we do is complex and there is never an easy answer when we are working to improve lives and change community conditions. Our work requires a new way of thinking, new partnerships and relationships.

This Annual Report highlights the results of your investment in United Way. We are grateful for your support and trust in what we do to make life better for the people of Southwestern Indiana.

It has been a privilege to serve as the Chair of the Board and to work with such a caring, dedicated Board of Directors, partner agencies, volunteers and staff.

John Stanley, Board Chair

“The best part of being a fund distribution volunteer is seeing United Way partner agencies at work. There is so much need out there, and the agencies really stretch every dollar to do the most good.

I have learned so much about the partnerships, collaborations and support it takes to provide services. All of this is taken into consideration when making funding recommendations, and it really helps to know that the agencies are unquestionably achieving real outcomes that benefit our community.”

## COMMUNITY IMPACT

### COMMUNITY IMPACT

Imagine our community with a 100% graduation rate because more children are entering school prepared to learn. Imagine our community where families are stronger and healthier because they have access to affordable health care. Imagine our community where the cycle of poverty ends and financial stability begins. **This is the heart of community impact - creating opportunities for a better life for all.**

In 2008, United Way of Southwestern Indiana identified education, income (financial stability) and health as the most pressing issues in our community. These building blocks for a good life are interconnected. When one area improves, so do the others. By focusing our efforts on these three essential areas, the community can grow stronger and lasting change can begin.

# COMMUNITY INVESTMENT

United Way supports over 60 programs within the community. These programs align with three focus areas - education, income and health. Before it receives United Way support, a program must undergo evaluation by panels of community volunteers. These volunteers review the programs to ensure they have measurable results and that partners are financially stable. We hold programs to the highest standards, so that your donation has the highest impact in our community.

## EARLY CHILDHOOD EDUCATION

The opportunity of a lifetime happens within the first five years of life. Research shows that children who enter kindergarten with a foundation for success are more likely to stay on track, read proficiently by third grade, graduate from high school and build a better life for themselves and their own children.

United Way invested in programs that work toward this goal of school readiness by:

- helping families build literacy skills for their young children
- helping early childhood education and care providers increase their knowledge and skill levels to help children learn and grow
- expanding access to quality early childhood development programs

United Way is also the fiscal sponsor and a lead partner in the Early Childhood Development Coalition (ECDC). ECDC exists to provide opportunities for families and communities to prepare all children, birth to five, for success in school, thereby setting the stage for high school graduation, post-secondary education and a vibrant community.

In 2011, **656 children in Warrick and Vanderburgh counties transitioned from early childhood education to Kindergarten** with the ECDC Kindergarten Readiness Checklist, which is used to communicate between families and teachers to help meet children where they are as they enter school.

Because of ECDC, **219 families** participated in 15 of ECDC's literacy parties.

*Early literacy is an essential component of school readiness. ECDC empowers families and care providers with research-based practices that build reading into everyday routines.*

**228 early care and education providers, librarians and families** participated in 8 of ECDC's literacy workshops.

**More than 1,100 children, birth to five, and their families signed up for ECDC's Napoleon's Adventure Club.** These families receive 6 books at no charge along with research-based tips and ideas for sharing reading time with their young children.

## YOUTH SUCCESS

In order to thrive, children need high quality support, stable environments, positive experiences and caring adults in their lives. These connections and encounters influence them to make good choices for success in life.

United Way of Southwestern invests in programs that ensure youth achieve their full potential by:

- providing college preparation knowledge and resources
- providing safe, high quality after school activities
- providing opportunities to explore future career opportunities
- increasing healthy behaviors and decreasing high risk behaviors

United Way is a lead partner in an effort to ensure families have the help they need filing the Free Application for Federal Student Aid (FAFSA) to access grants, scholarships and loans they need to pay for post-secondary education. The goal of the program is to help youth take an important step towards achieving college goals and dreams for the future.

Volunteers provided assistance to families with **80 applications for student aid at 7 workshops** and sessions at 4 sites throughout the months of January, February and March in 2011.

# EDUCATION

# HEALTH

United Way of Southwestern Indiana promotes programs that ensure families and individuals have access to affordable health care and reduce risky or unhealthy behaviors.

In 2011, United Way invested in programs that:

- increased health & safety education
- maximized the independence of senior citizens
- maximized the independence of disabled citizens
- maximized the independence of children with disabilities
- provided preventative health care
- provided affordable, high quality physical health care
- provided affordable, high quality mental health care

In 2011, **over \$912,000** was invested in programs of partner agencies to help ensure families and individuals in Southwestern Indiana have access to affordable health care.

# HEALTH

## INCOME

Income, or financial stability, is the key for caring, responsible, successful families. Many local families do not earn enough money to meet their basic needs. United Way of Southwestern Indiana strives to improve the financial stability of families and individuals in our community by promoting programs that:

- help families and individuals maximize their income
- reduce food insecurity
- maximize assistance received in crisis
- provide job skills and education
- provide access to affordable housing

United Way brings together partners from throughout the community to increase financial stability for working families in Southwestern Indiana, advocate for the needs of our most vulnerable populations and help our community better understand poverty and how to tackle the issues associated with it.

Four Free  
Tax Preparation sites,  
open January through April  
of 2011, ensured **682 low-  
to-moderate-income working  
families in Southwestern Indiana  
received all of the tax credits they  
qualified for** like the Earned Income  
Tax Credit, providing them with  
additional income as well  
as a boost to our local  
economy.

Bank On  
Evansville reached  
**3,194 accounts opened  
in 2011**  
by our partner financial  
institutions.

**Four  
Poverty  
Simulations helped  
305 individuals**  
understand what families  
living with extremely low  
incomes face in trying  
to meet their basic  
needs.

## Indiana Nonprofit Resource Network

The Indiana Nonprofit Resource Network (INRN) is a statewide, regionally-based service that provides high quality, affordable training and facilitation services designed to strengthen area nonprofits. The INRN Southern Region, serving 24 counties, is a program of United Way of Southwestern Indiana and is funded by a grant from the Lilly Endowment through the Indiana Association of United Ways.

In 2011, INRN Southern Region:

- Provided **67 custom and public trainings** and consultations
- Served **23 counties in the Southern Region** of Indiana and 11 counties outside of the Southern Region
- Included **1,377 program participants** in workshops throughout the year

Some of the topics included in sessions during 2011 were:

- Building a Strong Board of Directors
- Writing Grant Proposals
- Legal Responsibilities of a Nonprofit Board
- Introduction to Outcomes Measurement
- Effective Nonprofit Fundraising

Each workshop attendee was asked to evaluate the effectiveness and usefulness of the information provided. **Participants gave INRN Southern Region trainings an average score of 3.85 on a 4-point scale.**

“The Indiana Nonprofit Resource Network, Southern Region, is vital to our efforts to serve vulnerable and at-risk Hoosiers.

By providing high-quality training and technical assistance services, they enable our nonprofit agencies, and the local delivery systems served by those agencies, to be strong, vital and focused on their mission. This unique and unduplicated service helps our nonprofits work at their highest level and ensures that our community is better able to serve those in need.”

Scott Wylie  
Director, Vanderburgh Community Foundation

## 2-1-1 Information and Referral Service

Hope. Kindness. Help. This is what 2-1-1's Information and Referral Specialists give to hundreds of clients every day. 2-1-1 is an easy-to-remember phone number for people to use in times when they need help navigating the web of social services in our community. United Way 2-1-1 provides service to five counties in Southwestern Indiana - Gibson, Posey, Spencer, Vanderburgh and Warrick.

**In 2011, 2-1-1 answered over 19,000 calls for help and made over 30,000 referrals to clients.**

The value of 2-1-1's service to the community cannot be measured only by the number of calls they receive, it must also be measured by the help they give.

A 2011 Outcome Satisfaction Survey of 266 clients showed **36% of respondents received help from referral agencies.** In an Agency Service Provider Survey, over half of the respondents reported that 2-1-1 refers clients appropriately and 78% stated they refer clients to 2-1-1 and it saves time. Their words speak for themselves.

"I have always found the 2-1-1 service VERY valuable - for myself, our employees and the individuals we serve."

"Glad to have a centralized place to call for help."

"Thanks for providing this efficient way for clients and providers to learn about community resources."

"It's not just a 'time' issue. Many clients we work with have vital needs and issues where we just don't know how to help. The 2-1-1 option is a MAJOR benefit for the people of this community."

# 2-1-1

“Running the annual United Way Campaign takes a tremendous amount of planning and coordination that involves the Campaign Cabinet, United Way staff and many committed community volunteers.

Once you have an audience, our local United Way story speaks for itself - the 33 partner agencies, 60 targeted programs and numerous stories and testimonials of people served seems to resonate with donors.

Our community is blessed by the many caring individuals and businesses that support the mission of our United Way.”

“Looking at audited financial statements is like learning a foreign language for many people. But the benefit of having audited financial statements is that it lets you know that the staff and volunteers of United Way of Southwestern Indiana spend many hours making sure that your investment in United Way’s work is taken very seriously.

We strive to make sure we are good stewards of your investment. Having a clean audit lets you know that we operate under the proper accounting standards of a 501(c)(3) nonprofit organization.”
